Nahita presents this practical stand that can hold several electrodes, probes or thermometers at the same time.

Features

1| The round base, made of painted steel, presents a diameter of 120 mm and gives stability to the support while the arm, made of plastic, is articulated at three points and can be turned in an angle of 360º while keeping the electrode in a vertical position.
2| Moreover, the arm presents two cable clips ensuring that all cables are neatly routed to provide a safe and tidy installation.
3| The holder is provided with a central hole and 5 lateral slots to hold electrodes, thermometers, probes or similar.
4| The maximum operative height of the stand is 380 mm and the minimum (at the edge of a table) is 140 mm below the base.

Technical features

Code	KDG001
Dimensions (folded)	190x120x210 mm
Holes Ø	1 of 13.5 mm 2 of 13 mm 2 of 12 mm 1 of 7 mm
